

The benefits of prevention

Seeing us regularly is the simplest way to keep your mouth healthy — and to avoid bigger, more costly treatment later. Here is what routine, preventative care does for you:

Problems caught early

Small issues are spotted and treated before they turn painful or expensive.

Lower lifetime costs

Prevention costs far less than fillings, root canals or extractions down the line.

Your natural teeth, for longer

Routine care supports our minimally-invasive approach — keeping more of your own teeth.

Healthier gums & body

Professional cleaning protects your gums, which are closely linked to your overall health.

Easy to budget

The Penn Plan spreads the cost of your essential routine visits evenly across the year.

“Prevention is the key to excellent oral health.”

Join the Penn Plan and let us help you keep that healthy smile for life.

Worldwide protection and peace of mind for as little as £19 per month
